

# ULTRA EVER DRY

- ✓ Anti-Wetting, Anti-Corrosion, Anti-Icing and Anti-Contamination
- ✓ Self-Cleaning
- ✓ Product Life-Extending

## LIQUID REPELLENT NANO-COATING TECHNOLOGY

Ultra-Ever Dry is a superhydrophobic (water) and oleophobic (hydrocarbons) coating that will completely repel almost any liquid. Ultra-Ever Dry uses proprietary nanotechnology to coat an object and create a barrier of air on its surface. This barrier repels water, refined oil, wet concrete, and other liquids unlike any other coating. Ultra-Ever Dry has vastly improved adhesion and abrasion resistance, compared to previous technologies, allowing it to be used in applications where greater durability is required.

**DEGREES OF HYDROPHOBICITY CONTACT ANGLES  
GREATER THAN 90 DEGREES ARE CONSIDERED HYDROPHOBIC,  
AND ARE CONSIDERED SUPERHYDROPHOBIC IF GREATER THAN 150 DEGREES**

### FOR INDUSTRIAL USE ONLY.

- **Anti-Wetting:** The superhydrophobic coating keeps objects dry, water and many other liquids simply repel off.
- **Anti-Corrosion:** Maximum corrosion protection since the superhydrophobic coating ensures water and moisture never actually contact the base material.
- **Anti-Icing:** The superhydrophobic properties of Ultra-Ever dry keeps coated materials completely dry, eliminating the formation of ice.
- **Anti-Contamination:** Dust, dirt, water and other liquids that contain bacteria or radiation never actually contact the surface of the coated material so bacteria and radiation is greatly diminished or eliminated and easy to decontaminate to sterile, if needed.
- **Self-Cleaning:** The Ultra-Ever Dry repels dirty water and thick oils, and remains clean and virtually bacteria-free. When dust, dirt or other molecules accumulate on a superhydrophobic coated surface, a light spray of water or a blast of air grabs the dust and removes it.
- **Product Life-Extending:** Ultra-Ever Dry coating to extend the life of work gloves and other PPE, electric motors by preventing moisture on the windings, coat nuts and bolts to prevent corrosion, coat tools, equipment, and virtually any item that needs to be kept dry, corrosion free, de-iced, uncontaminated or clean. Save money, provide greater safety and a cleaner work environment.

Cyndan Chemicals is an authorised National Distributor of Ultra Ever Dry in Australia. See [www.cyndan.com.au](http://www.cyndan.com.au) for details.

Chemical solutions across multiple industries  
100% Australian owned - Est. 1978
